Resolved, That we recommend, that on An

Aug 13th, the rates and proportions, as agreed upon at Indianapolis, be reduced.

Mr. Myers of the C. & P. R. offered the

following as a substitute for Mr. Strader's reso-

lution:

Resolved, That we recommend, that on An

Aug 13th, the rates and proportions, as agreed upon at Indianapolis, be reduced.

Mr. Strader's resolution adopted. The votes were as follows:

1st. Cotton is used as it is purchased—on spools

without re-winding; saving time, trouble and

waste.

2d. The trouble and perplexity of filling a shut-

tie, (as in other machines,) is in this avoided; no

shuttle is employed, the under thread being used

from a large spool.

3d. It is very simple yet strong in construction,

easily learned and kept in order, and does not re-

quire to be taken apart to be oiled.

4th. The stitch is always distinct, even and reg-

ular, and will not rip though every fourth stitch

be cut.

5th. The stitch is as elastic as the most elastic

elastic.

This Machine embroiders beautifully.
